## “About us” Section

Dear Colleagues,

I hereby have the pleasure of announcing the creation of the EUROSAI Task Force on the Audit of Funds Allocated to Disasters and Catastrophes that was established in 2008 during the VII EUROSAI Congress. The Task Force chairmanship was entrusted to me by the Accounting Chamber of Ukraine.

Since the Task Force establishment the Accounting Chamber has fulfilled a number of activities to organize its work and launch efficient cooperation between the members and stakeholders.

This web-page was designed to share information and materials relevant to the Task Force activities, disclose the results of its work and keep the audit community informed about the Task Force's efforts.

I am deeply convinced that our collaborative endeavours will become a powerful tool for consolidation and coordination of the European SAIs in this domain and assisting our governments in the development of effective and efficient instruments for the prevention of disasters and catastrophes and elimination of their consequences.

I do hope that this web-page will be useful and relevant for every auditor and expert that deal with the nature protection and seek to preserve our environment safe for the future generations.

Sincerely,

Dr. Valentyn Symonenko

Chairman of the Accounting Chamber of Ukraine
